## SKILLS

C

C++

JAVA

Python

Html

CSS

SQL

## LANGUAGE

English

*Professional Working Proficiency*

Hindi

*Native or Bilingual Proficiency*

Bengali

*Professional Working Proficiency*

## ACADEMIC KNOWLEDGE

OOPS

DBMS

DSA

Software Engineering

Operating System

## EDUCATION

### B.Tech , Computer Science and Engineering

Guru Nanak Institute Of Technology

2019 - 2023

8.61 YGPA(up to 6 sem)

### WBCHSE

Naihati Anand Swaroop High School

2016 - 2018

64.33%

### WBBSE

Kanchrapara Ramprasad High School

2011 - 2016

77.7%

## CERTIFICATES

Machine learning with Python ( Coursera )

Learn Java From Scratch ( Udemy )

## PROJECTS

### Olympics Data Analysis and Visualization

- This is streamlit web app which help us to visualize data for olympics data over the year
- Analysis done on basis - 'Medal Tally', 'Overall Analysis', 'Country-wise Analysis'
- **Python, Google colab, streamlit (framework)**
- link - [https://github.com/Rohitpaswan/Olympic\\_data\\_analysis.git](https://github.com/Rohitpaswan/Olympic_data_analysis.git)

### Car Price Prediction model

- Using Machine learning algorithm (linear regression)
- Can predict the price for old car based on several features
- **Python, Google colab, linear regression**
- Link:- <https://github.com/Rohitpaswan/Car-Price-Prediction>

## ACHIEVEMENT

5 star in Java : HackerRank

Successfully cleared assessment for Python : HackerRank
